War Photographs Taken on the Battlefields of the Civil War Mathew B. Brady,Alexander Gardner,2013-06-01

Fought over the course of four years, the Civil War pitted countrymen against countrymen, North versus South, friend against friend, and brother against brother. The photographs within these pages document the war that united America as one. These rare shots were taken in the middle of the battlefield during the earliest days of photography. Selected from a collection of seven thousand original negatives, these historic photos capture nearly every aspect of Civil War life. Among these photos are images of camps sprawling across acres, soldiers at their battlements, firing of heavy artillery, the aftermath of battle, and the terror that these young men faced. See first-hand of Union and Confederate officers strategizing their next moves, and Abraham Lincoln addressing his Union commanders. Originally released from the private collection of Edward Bailey Eaton in 1907, this edition is a must have for any Civil War buff or historian. No collection can be considered complete without these photographs by Matthew Brady and Alexander Gardner, as well as the meticulous passages that put the images in illuminating context.

Three Voyages Rene Laudonniere,2001-05-11 This translation of an eyewitness account by a major participant offers

valuable information about all three attempts to establish a French colony on the south Atlantic coast of North America. Rene Laudonniere's account of the three attempts by France to colonize what is now the United States is uniquely valuable because he played a major role in each of the ventures—first, in 1562, as second in command during the founding of the ill-fated Charlesport, then as commander for the establishment of Fort Caroline on Florida's St. Johns River in 1564, and finally as the one to welcome French reinforcements the following year. It was also Laudonniere's destiny to witness the tragic fall of Fort Caroline to Spanish claims one month later. Laudonniere wrote his chronicle, *L'histoire Notable de la Floride*, in 1565 following the fall of Fort Caroline as he recuperated in England. Much more than an account of his feelings and adventures, Laudonniere's history reveals him to be an exceedingly able and accurate geographer with a highly developed interest in anthropology. The first English translation was published by Richard Hakluyt in 1587. Charles E. Bennett's graceful and accurate rendering in modern English was first published in 1975 by the University Press of Florida. Besides the account, thoroughly annotated and with present-day names identifying sites visited by the Frenchman, this volume includes a valuable introductory essay. The appendices to the volume are four noteworthy documents, the last of which—a guide to plants of 16th-century Florida—will be of exceptional interest to naturalists, gardeners, and students of folklore. The account itself will fascinate professional historians and anthropologists as well as general readers interested in the exciting and often moving events of early European settlement in the New World. Rene Laudonniere was a French adventurer and explorer of the 16th century who wrote *L'histoire Notable de la Floride*. Charles E. Bennett is a historian and former Florida congressman. He was coauthor of the Moss-Bennett legislation and was instrumental in the establishment of the Fort Caroline National Memorial and the Timucuan Ecological and Historical Preserve. Jerald T. Milanich is Curator in Archaeology at the Florida Museum of Natural History.
